collaborations. We would create a virtual training platform. This platform will facilitate, training done at multiple locations by the same trainer in the interactive mode. This will ensure that fairly trained staff to be absorbed in the company as per your requirement.

# Option 2 'Train & Hire'

PROVIDE COLLOBORATED S.E.P  
(**Skill Enhancement Programs**)  
and then Hire trained students as  
employees.

**Work Flow**

# Excerpt

As we already have this virtual classroom system in place, which is a well oiled machinery for any such virtual collaborations. We would create a virtual training platform. This platform will facilitate, training done at multiple locations by the same trainer in the interactive mode. This will ensure that fairly trained staff to be absorbed in the company as per your requirement.

# Work Flow

PROVIDE COLLABORATED S.E.P (Skill Enhancement Programs) and then Hire semi-finished product

Filter Students by eligibility

Syllabus tuning specific to your requirements

Provide list of eligible students to colleges administration as trainable students

Get students enrolled for the virtual training specific to your company.

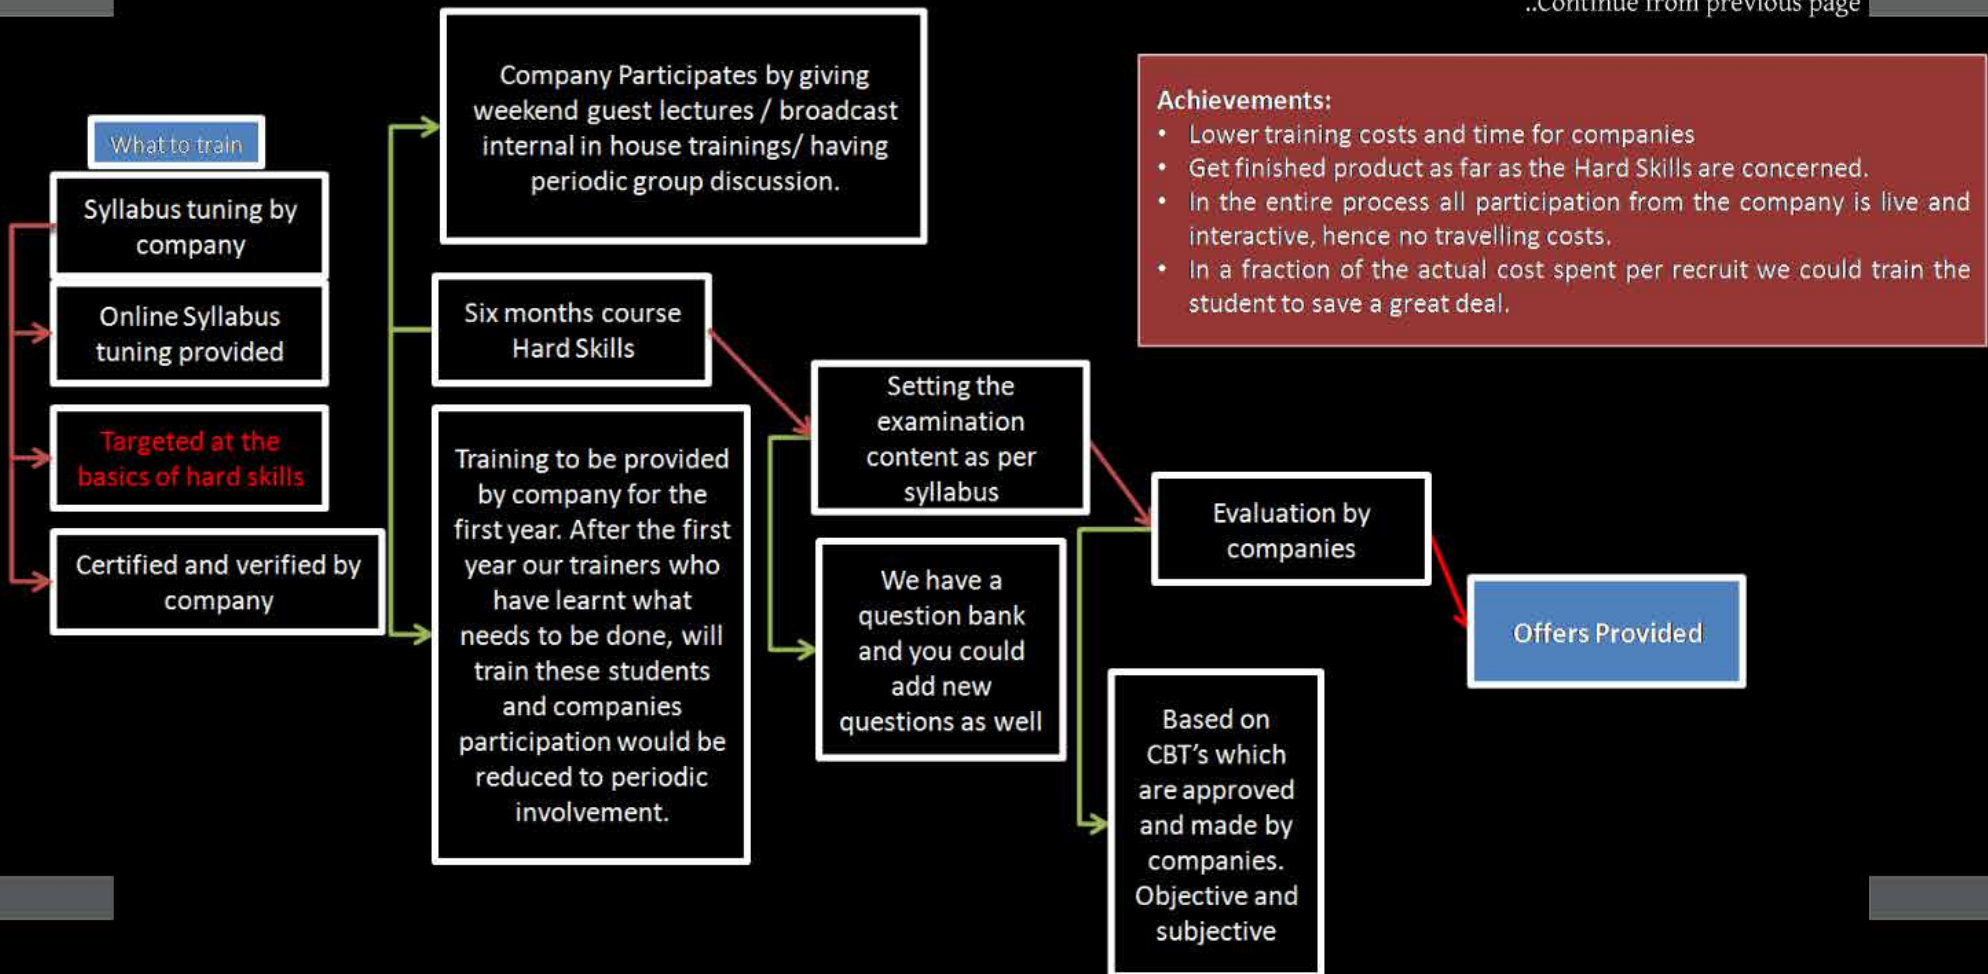

Training begins as scheduled. Schedules keeping in view the college schedules too.

## Key features:

- Design your own syllabus to ensure better trained employees for your company
- Conduct trainings virtually hence no travelling costs as well
- Students completing the training and passing evaluation to be absorbed as employees – contractual or general.
- First years training to be done directly by the companies and then our trainers will take over.
