Watchwitz Webcasting Solution

- Is very easy to use
- Is very reliable and secure
- Works with a standard broadband connection
- Is becoming the standard in communication
- Uses equipment you already own
- Competitive price plans
- Private co-branding
- Outstanding customer and technical support
- Extremely user-friendly and easy to access application for your customers
- Completely hosted application with zero setup and configuration

With our Webcasting solution there's no hardware or software to purchase.

A webcam, a microphone, and an Internet-ready computer is all you need for instant access to all the powerful Webcasting features.

**Tech Support:**

Please send your tech support email to **support@watchwitz.com** and state your problem as specifically as possible. Include as much information as possible about your computer, such as:

- What CPU is in your computer?
  - What operating system does it have (type and version)?
  - What is the speed of your Internet connection?
- A member of our support team will contact you shortly.
